Furnishing Knowledge

Morgan's & KI Europe

Morgan furniture has over 50 years experience in the educational furniture industry. Having earned our reputation for professionalism, quality and reliability, we pride ourselves on our excellence in operations and customer care. We have a keen understanding of the educational and classroom environment, providing customers with furniture of the highest quality, and on time.

As a preferred partner to KI Europe, we supply seating that is specifically designed to be adaptable to individual user needs. This gives educational institutions the ability to create healthy, happy, high performing learning spaces.

Postura+ Classroom Chair

Ireland's #1 school chair, tried, tested & proven since 1996

Designed to promote good posture and provide exceptional comfort, the Postura+ chair is proven to be durable, comfortable and offer excellent value for money. Made in the UK from high impact resistant polypropylene, their gas injected legs increase strength and reduce weight. The perfect addition to any dynamic learning environment.

Trolley moves 12 chairs with ease

Chairs & Table Sizing Guide

The British and European Standards for “chairs and tables for educational institutions” were approved in January 2007. BS EN 1729 Part 1 (functional dimensions) ensures furniture is the appropriate size, shape and ergonomic design to maintain good posture and reduce RSI and back pain in students. The size mark indicates which fixed seat heights and tables heights are suitable for the student’s age.

Plaza

Stackable elegance for indoor and outdoor use

For dining areas, common rooms and libraries, the Plaza chair offers a streamlined, simplified design. This lightweight stack chair features a curved shell for user comfort and is both durable and versatile for a wide range of indoor and outdoor applications.

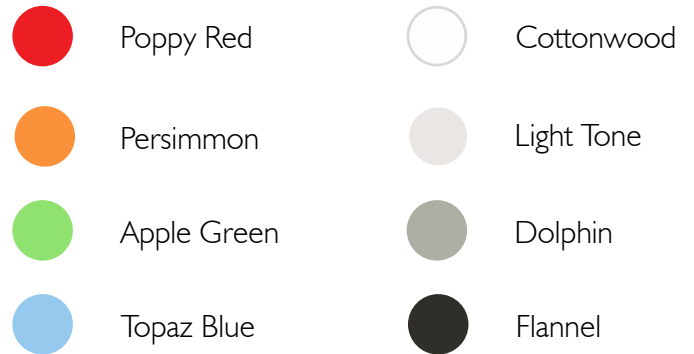

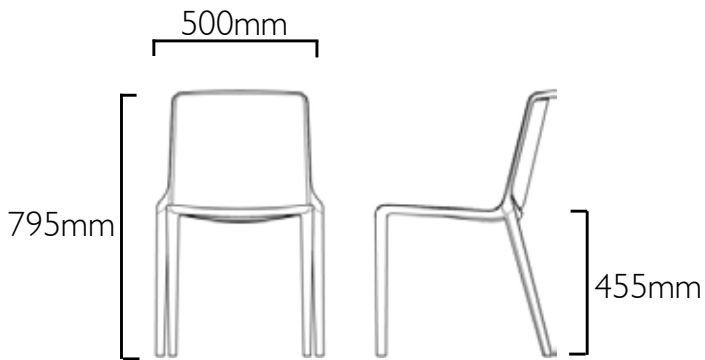

Plaza

- Single piece injection moulded polypropylene
- Available in 8 colours
- Built-in UV protection, suitable for outdoor use
- Stackable to 8 high on floor, 16 high on transport dolly
- BS EN1729 compliant, BIFMA tested for strength & stability
- 5 year warranty

Learn2

Dynamic and versatile, Learn2 creates engaged learning spaces

Adept, flexible and student-focused, Learn2 seating transforms learning environments. It goes wherever it's needed and can be arranged in any configuration you can imagine. Mobile and adaptable, Learn2 facilitates individual work or small to large group teaming.

Learn2

- Large, flexible writing surface rotates 154° and moves in/out laterally
- Seat swivels for ease of entry/exit 28° right and left
- Support arm rotates right / left 220° to accommodate any preferred position
- 15 year warranty
- Seat pad in fabric or vinyl can be added

Additional options

Strive

A collection of simple, ergonomic & elegant seating for all learning spaces

World famous Italian furniture designer Giancarlo Piretti's goal in creating the Strive collection was simplicity. His simple, yet elegant design is comfortable and affordable. The unique, flexible back with a wire rod inserted into the polypropylene encourages movement and relaxation. The back curve provides lateral support and the contoured seat dissipates pressure points.

Strive

- Available as high density stacking chairs, 4 leg chairs, nesting chairs, task chairs, task stools, café stools & Learn2
- Polypropylene seat shell available in 27 colours
- Designed by Giancarlo Piretti
- 15 year warranty

Intellect Wave

Exceedingly durable and comfortable seating for every application

Engineered to withstand tough classroom use, Intellect Wave exceeds industry standards for durability with elliptical tubing to provide superior frame strength. Lightweight, textured poly shells resist scratching, fading, chipping and denting. The result is classroom furniture that gives years of low-maintenance service.

Intellect Wave

- The range includes 4 leg chair (also with castors and writing tablets), reverse cantilever, task chair, task stool, café stool, music chair & Learn2.
- Polypropylene seat shell available in 27 colours
- Wider back provides greater support
- Flexible polypropylene seat shell adds subtle movement for increased comfort
- 15 year warranty

Perry

High density elegance with unique flexibility and comfort

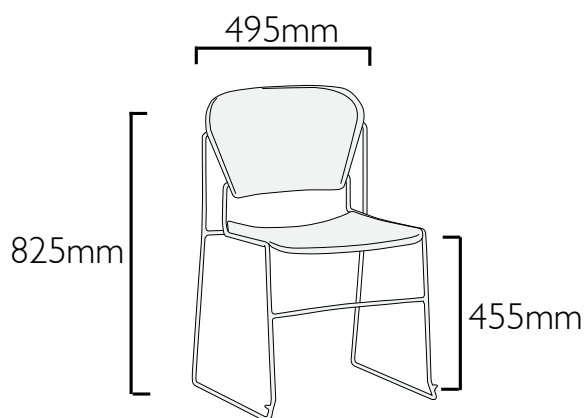

Renowned sculptor and designer Charles Perry developed the Perry chair and its principle of articulation. The seat is suspended from the lower back, so the occupant's weight perfectly counterbalances the tilting pressure on the backrest. This unique, maintenance-free articulating backrest allows for movement and provides support in any position.

The result: comfort you never expected from a high density stacking chair.

Perry

- Solid steel rod frames in chrome or 24 paint finishes
- Polypropylene seat shell available in 24 colours
- Right/left hand removable tablet arm
- Stackable to 25 high on transport dolly
- BS 4875: Part 1: Test Level 4, and BS 7945: 1999

Matrix

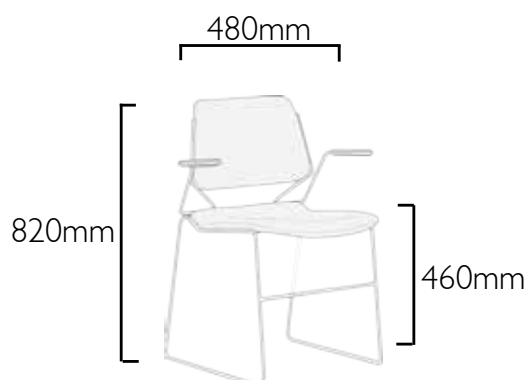

High density elegance for dynamic, flexible and multipurpose environments

Designed by Thomas Tolleson, the Matrix chairs can stack up to 45 high on a transport dolly and still fit through a standard doorway, maximising space efficiency. Optional armrests and removable tablet arms add even more comfort and versatility to this popular choice for multifunctional spaces such as libraries, halls, cafeterias, social areas and classrooms.

Matrix

- Solid steel rod frames in chrome or 24 paint finishes
- Available with or without arms
- Option to link chairs with Lexan glides
- Right/left hand removable tablet arm in 45 finishes
